Metadata Sheet

Dataset Title	Latin America and the Caribbean Standardized Public Debt Database
Description	LAC Debt Group believes that to have sound regional policy it is important to have valid, comparable, and standardized data on Latin America and the Caribbean. This is why at the core of the initiative is the development of a standardized sovereign debt database to help debt managers, policy makers, and other actors of financial markets, analyze the composition of debt in Latin America and the Caribbean. The information presented in this database is provided by the Debt Management Offices (DMOs) of countries in the region, in response to a questionnaire specifically created to allow comparability of data. The questionnaire, which is non-compulsory, is intended to compile up-to-date standardized statistics to conduct cross-country comparisons over clear, objective and homogeneous definitions of public debt.
Dataset Type	Panel data
Publisher/Editor	Inter-American Development Bank, Connectivity, Markets and Finance Division (IFD/CMF), Executive Secretariat of the LAC Debt Group
Creator Contact Email	Executive Secretariat of the LAC Debt Group (lacdebtgrp@iadb.org) /Joan Prats (joanp@iadb.org)
Creation Date	November 9, 2020
